

***E-Space* Systems Advisory Board (continued)**

David Gill

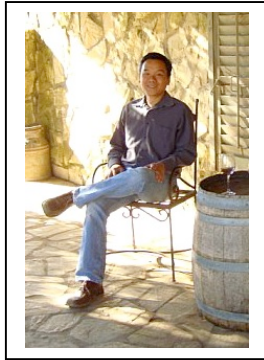

David Gill is a major project manager for a Fortune 500 mechanical engineering company; with vast experience in design build delivery methods and a passion for sustainable and green building. When articulating his thoughts regarding sustainable and green building design, his mantra would most accurately be described as good stewardship. David has a strong commitment to the safeguarding the earth's resources, seeing construction as among the most important vehicles with which to affect change. He believes, as Winston Churchill once said, "first we shape our dwellings, then our dwellings shape us."

David has had extensive LEED training, and has served as project manager on several LEED Certified buildings in the Northern California area, to include Cal PERS Expansion Project (Certified) and Veterinary Medicine at University of California, Davis (Silver). His passion for green building principles and sustainable products has extended beyond his career choice well into his personal life, where he has implemented several innovative and conscientious products and designs into his own home. From solar panels and ground source heat pumps, to structural insulated panels, David is not only well-informed, but lives his beliefs. David is an active member of the US Green Building Council, and has participated in green construction events throughout the Western United States.

Education: California State University – Bachelor of Science Construction Management, Minor in Business Administration

Associations: American Society of Heating, Refrigerating, and Air Conditioning Engineers (ASHRAE), Design Build Institute of America, United States Green Building Council, Sacramento Builders Exchange, Veterans of Foreign Wars Leadership in Energy & Environmental Design

John Louis Chan, Bio

John Louis Chan has over 15 years of experience in the field of Architecture.

In 1989 he received a Bachelor of Architecture with honors from the University of Houston and was awarded the Alpha Rho Chi Medal for service to the College.

After his undergraduate studies Mr. Chan worked as a designer with the architectural firm of Baxter, Hodell, Donnelly and Preston in Cincinnati, Ohio. As a young designer at BHDP he worked directly for the design partners on retail, academic and laboratory buildings.

In 1993 Mr. Chan was accepted to the Master of Architecture program at the Cranbrook Academy of Art in Bloomfield Hills, Michigan. Mr. Chan's graduate thesis work was exhibited at the Storefront for Art and Architecture in New York.

In 1995, Mr. Chan accepted a position as a designer at the architectural firm of Skidmore, Owings and Merrill, Los Angeles. The following year he relocated to the San Francisco office of Skidmore, Owings and Merrill where he was promoted to the position of Associate.

At SOM he worked on large scale projects such as the 54 story Philippine Bank of Communications Tower and the Dole World Headquarters in Westlake Village, California.

In 2000 Mr. Chan returned to Los Angeles and established a private design practice. As the Principal of The Studio of John Louis Chan, Mr. Chan's work involved both residential and commercial design in

the Los Angeles area. Some of his recent projects include a master plan for offices and printing facilities for C.O.P. Communications in

Glendale, California, office space design for the Creative Artists Agency in Beverly Hills and residences in Studio City, La Canada, Mar Vista and Silver Lake.

In 2009, Mr. Chan joined the Claremont Environmental Design Group as a Director with a focus on business development.

Mr. Chan resides in Los Angeles with his wife Iris, a screenwriter. He enjoys the outdoors of southern California as an avid sailboat racer and hiker.
